Project Highlight: St. Antonius Church Remodel

The design build addition and renovation of the St. Antonius Church in Hayward is coming to a close with only finishing touches remaining. We are excited to highlight this project as our crews worked tirelessly with the owner and GC to ensure the church got everything they needed. The results are excellent and we are proud to have been part of this project.

Employee Spotlight:

Meet Javi, one of our rough carpenters. Javi has been with us for roughly one year. In the field Javi is the kind of guy who gets along with everyone. One of his best attributes is his desire to learn as much as possible. He has a great sense of humor which is important to have on a jobsite because it helps keep the crew morale up. He loves trying to get people to buy him food, and in one instance got a project superintendent to buy him doughnuts for his birthday. Outside of work he is a family man and loves spending time with his son. When he isn't with his son, he can be found in the boxing gym taking lessons.
